

The diagram shows a vertical cross-section of a drainage structure. At the top is a layer of topsoil, indicated by a pattern of small triangles and labeled "ziemia w wykopie". Below this is a thick layer of sand bedding, indicated by a stippled pattern and labeled "obsypka z piasku ubijana warst. gr. 15 cm 90% zagęszczenia". A black circular pipe is embedded in the sand, labeled "rura PVC ø 200/5,9 mm". Below the pipe is a thin layer of compacted sand bedding, indicated by a stippled pattern and labeled "ubita podsypka z piasku". The entire structure is shown within a trench, with a horizontal line at the top representing the ground surface.
